Dear Mr. Brown:

Process Specification Approval for Rewind

The review of Process Specification Manual, Control Number 3.1 and Quality Procedures Manual Control Number 5.1, was found acceptable by Atlanta Aircraft Certification Office (ACO); Systems & Flight Test Branch, ACE-116A.

Based on the acceptability by ACO, this office approves your Process Specification, Control Number 3.1, for use with the associated company Quality Procedures Manuals in the rewinding and approval for return to service of the items listed in the company Capability List as revised and accepted by this Certificate Holding District Office.

Sincerely,

Walter R. Wheeler
Principal Avionics Inspector
